AUTOMATIC BIDDING: Allows the GiveSmart system to bid automatically up to an amount you designate. The system will place your bid at the minimum amount needed for you to lead in the bidding. When you are outbid, the system will bid automatically for you until your maximum is reached.

Select AUTO BID and enter the higher amount.

Wait and watch! The system will bid for you incrementally up to the designated amount **ONLY** if someone bids against you.

Who wins?

If two bids are placed for the same amount, the bid placed first, based on the timestamp wins. Timestamps are set when the initial bid is placed, for autobids this is when a maximum was set not when the system prompted the bid to win.
